WORK EXPERIENCE

Web Designer/Developer ELOIN.in | WFH

JULY 2021

It is a cryptocurrency project where you can buy sell Eloin coin

- I served myself as a designer/developer and a chief member of the team i have done many tasks under this but my main job was to maintain blockchain website for the project, deal with the different types of buyers and sellers and their quires. these enhanced my technical skills as well as interpersonal skills.

Web Development (ui/ux) NIRVAAN.co | WFH

MARCH 2021

It is a startup project on healing sound

- I worked with the core team on the both frontend and backend side of the project which includes the theme of the website, addition of different t healing sounds, management of the webinars, dealing with other interns from different countries ,organizing meetings and events and lot more i have learnt from this like mangement skills,comunication skills,leadership skill and etc.

PROJECTS
